## **Cutting-edge Machine Tools**

Accurate manufacturing processes ensures consistent quality to our customers.

Thus, [Wensui Group](#) invested in 35 million on workshop renovation and machine tools. We utilize first-class machine tools, such as, CNC machine from Spain.

Lathe machine from Taiwan.

Flame cutting machine from Japan.

Laser cutting machine from Japan and Germany.

Gantry machining center and Boring machine from Korea.

From carefully selected materials to scrupulous care of all production phases, we gain the highest level of satisfaction by producing and delivering the best state-of-the-art machines to every customer.

## **Vision**

Become the world's leading innovator of waste material recovery equipment.

## **Mission**

Improve human environment and life through technological innovation.

Philosophy

Mastery and Sustainability. Wiscon is elevating its brand by providing machines and system solutions that contributes to human and improves the

quality of people's lives. With our globally proven technologies and innovation, we strive continuously to improve our products and services to create a better future.

### **Core Values: Mastery and Sustainability**

Wiscon passed the **ISO9001-2000 quality management system and CE standard** due to our enriched manufacturing experience, proactively product improvement, and quality accountability system.

Wiscon's business model depends on sustainability. Wiscon is always eager to turn trash to treasure for our customers. It is never easy to provide perfect-fit solutions to customers. However, we are always committed to the ongoing development and challenges of recycling solutions.

Wiscon is committed to the ongoing development of size reduction solutions as it responds to the dynamics of global environmental, regulation and economic demands.
